

FDC Aggressive Portfolio

Irish Life

Information is correct at 28th February 2015

Fund Description

The fund will invest mainly in the securities of companies domiciled in or conducting the major part of their economic activity in emerging market countries. The fund may also invest in other assets from time to time.

Investors in this fund are aiming for significant long term capital gains and investment returns, and as a consequence are prepared to accept considerable risk and potentially extreme ups and downs in asset values, especially in the short term.

Warning: If you invest in this product you may lose some or all of the money you invest.

The assets in this fund may be used for the purposes of securities lending in order to earn an additional return for the fund. While securities lending increases the level of risk within the fund it also provides an opportunity to increase the investment return.

This fund may borrow to invest. While borrowing increases the level of risk within the fund it also provides an opportunity to increase the investment return.
