

Indexed Japanese Equity Fund Series H

Information is correct at 31st December 2014

Fund Description

This is a passively managed equity fund that aims to track the FTSE® Japan Index thereby achieving Japanese market equity returns on a consistent basis.

We achieve this by investing in the same equity stocks as those of the index in the same weightings. This removes the risk of poor stock choice.

This fund is suitable for investors who will accept the ups and downs that come with investing completely in equities in order to improve potential return.

Warning: If you invest in this product you may lose some or all of the money you invest.

The assets in this fund may be used for the purposes of securities lending in order to earn an additional return for the fund. While securities lending increases the level of risk within the fund it also provides an opportunity to increase the investment return.
