

Complete Solutions 1 for Personal Pensions

your **Customer
Information Notice**

Introduction

This notice is designed to highlight some important details about the plan and, along with the **Complete Solutions** booklet, is meant to be a guide to help you understand your plan. Full details on the specific benefits and options that apply to you will be contained in your plan schedule, Terms and Conditions booklet and personalised customer information notice, which you will receive when the contract is in place. It is important that you should read these carefully when you receive them as certain exclusions and conditions may apply to the benefits and options you have selected.

Any Questions?

If you have any questions on the information included in this customer information notice you should contact your financial adviser or your insurer Irish Life, who will deal with your enquiry at our Customer Services Team, Lower Abbey Street, Dublin 1.

Contents

- 5. ARE RETURNS GUARANTEED AND CAN THE PREMIUM BE REVIEWED?**
- 6. CAN THE POLICY BE CANCELLED OR AMENDED BY THE INSURER?**
- 7. INFORMATION ON TAXATION ISSUES.**
- 8. ADDITIONAL INFORMATION IN RELATION TO YOUR POLICY**
 - What are the benefits and options under this plan?
 - What is the term of the plan?
 - Are there any circumstances under which the plan may be ended?
 - How are the contributions invested?
 - Is there an opportunity to change your mind?
 - Law applicable to your plan.
 - What to do if you are not happy or have any questions?

B. INFORMATION ON SERVICE FEE.

C. INFORMATION ABOUT THE INSURER OR INSURANCE INTERMEDIARY OR SALES EMPLOYEE.

D. INFORMATION TO BE SUPPLIED TO THE POLICYHOLDER DURING THE TERM OF THE INSURANCE CONTRACT.

A. INFORMATION ABOUT THE POLICY

1. MAKE SURE THE POLICY MEETS YOUR NEEDS!

Your Complete Solutions for personal pensions is a long term regular contribution pension plan. If you choose to increase contributions in line with inflation they will automatically increase each year in line with the rise in the Consumer Price Index (CPI). When the rise in the CPI is low the company may set the increase at a slightly higher minimum amount (this is currently 5% but this may be different when the increase in your contribution is calculated).

The purpose of this plan is to:

- build up a retirement fund; and
- provide for payment of the value of your fund to your estate in the event of your death before retirement.

By taking out this plan, you are committing to make a regular contribution over a long term. Unless you are fully satisfied as to the nature of this commitment having regard to your needs, resources and circumstances, you should not enter into this commitment.

Your financial adviser must indicate whether paragraph a) or paragraph b) below applies

- a) This plan replaces in whole or in part an existing plan with Irish Life, or with a other insurer, which has been or is to be cancelled or reduced. Your financial adviser will advise you as to the financial consequences of such replacement and of possible financial loss as a result. You will be asked at the beginning of your application form to confirm this in writing. Please ensure that you have completed this section of the form and that you are satisfied with the explanations provided by your financial adviser before you complete the rest of the application form.
- b) This plan does not replace in whole or in part an existing plan with Irish Life or with any other insurer, which has been or is to be cancelled or reduced.

2. WHAT HAPPENS IF YOU WANT TO CASH IN THE POLICY EARLY OR STOP PAYING PREMIUMS?

The proceeds of this plan can be taken only on retirement. **You cannot cash in your plan early, although you can transfer the fund to another personal pension plan. If you stop making contributions, your fund will continue to be invested with Irish Life until you retire.**

If you stop making regular premium contributions, an additional annual plan charge of 0.25% will apply to the fund built up by your regular contributions. Please see your Terms and Conditions booklet for further details.

If you take your fund out of this plan or retire before 5 years after the start date of any contribution, an exit charge may be applied. An exit charge may also apply if you take your fund out of this plan before 5 years after the investment start date of any extra contributions in the future (including increases due to automatic indexation).

If we have increased the normal percentage of contribution invested for any reason, and you take your fund out or retire before the fifth anniversary of the start of your investment or the date you pay extra regular contributions (including automatic indexation) or single contributions, the exit charge may be increased by the same percentage as we increased your percentage of contribution invested. This exit charge that applies to your specific plan will be shown on your plan schedule.

No exit charge applies on death. We will not apply any exit charge to the fund value built up by your regular contribution fund on retirement (either early or at the chosen retirement date as shown on your plan schedule). We will not apply an exit charge to the fund built by single contributions on retirement at the chosen retirement date as chosen at the outset of this plan and shown on your plan schedule. We will apply an exit charge to a fund built up by single contributions on early retirement (i.e. on retirement earlier than the date chosen at outset and shown on your plan schedule). Please refer to your Terms and Conditions booklet.

If you choose to invest in fixed-term deposits in the Self-Invested Fund, you may incur breakage fees if you decide to move the fund out earlier than expected.

In certain circumstances, we may delay transfers. This may be because there are a large number of customers wishing to transfer out of the fund at the same time, or if there are practical problems selling the assets within the fund or if an external manager who is responsible for the investment of any part of the fund imposes a delay.

Due to the high cost and time involved in selling properties, a delay of this sort is most likely to happen if you are invested in a property fund (or a fund with a high proportion of property or property related assets). The length of any delay will depend on how long it takes us to sell the assets in the fund. A minimum delay of six months would be likely to apply in this situation. Delayed transactions will be based

on the value of units at the end of the delay period when the transaction actually takes place.

When there are more customers moving out of a fund than making new investments in it, we may reduce the value of the units in the fund to reflect the percentage of the costs associated with buying and selling the assets of the fund. The reduction in the value of the affected assets will be different for each fund and is likely to be most significant for the proportion of any fund invested in property. The reduction for any part of the fund invested with external fund managers may happen at a different time to the reduction for the rest of the fund.

We may delay any transfers from the Self-Invested Fund until such time as we are able to realise assets within that fund. Delayed transfer values will be based on the value of units after the assets have been realised.

If you are invested in the Capital Protection Fund, a market adjustment factor may be applied to your fund value if you leave earlier than expected. Full details of this reduction are contained in your plan Terms and Conditions booklet.

If you decide to permanently stop making contributions at some stage, you can make the plan "paid up".

If you do stop making contributions early, the value of the pension fund may be reduced by charges that will continue up to retirement. This may result in a retirement fund that is less than the amount of the contributions made.

3. WHAT ARE THE PROJECTED BENEFITS UNDER THE POLICY?

The following tables set out the costs and benefits for a typical **Complete Solutions** pension plan. The values are projected assuming 5.94% growth and 7.94% growth. The figures will vary based on each individual's personal details and the benefits provided in each case. The figures below are based on the following details.

Customer: Aged 38 next birthday.

Contribution: €350 per month payable by direct debit, assumed to increase by 3% each year.

Term: The term of the plan is up to age 70. (In practice benefits can be taken at any time between ages 60 and 75.)

Funds: Contributions will be invested in the following way:

Core Fund	60%
Fidelity India China Fund	20%
Self-Invested Fund (shares)	20%

The Annuity Lifestyling Strategy has been selected.

Other funds with different charges are available. The choice of fund will determine what level of charges will apply.

TABLE (A): ILLUSTRATIVE TABLE OF PROJECTED BENEFITS AND CHARGES AT 5.94% GROWTH EACH YEAR

	A	B	C	D = A + B - C
	€	€	€	€
Year	Total amount of premiums paid into the policy to date	Projected investment growth to date	Projected expenses and charges to date	Projected policy value
1	4,200	114	498	3,816
2	8,526	432	1,079	7,879
3	12,982	966	1,497	12,450
4	17,571	1,833	1,842	17,562
5	22,298	3,008	2,327	22,979
10	48,148	14,000	7,309	54,839
15	78,115	35,156	15,629	97,643
20	112,856	69,251	28,140	153,966
25	153,129	119,552	45,843	226,838
30	199,817	186,541	69,026	317,331
32	220,512	214,947	79,080	356,379
* NRA	225,919	222,264	81,606	366,578

Warning: These figures are estimates only. They are not a reliable guide to the future performance of your investment.

* NRA = Normal Retirement Age, which is assumed to be age 70.

IMPORTANT: THIS ILLUSTRATION ASSUMES A RETURN OF 5.94% EACH YEAR. THIS RATE IS FOR ILLUSTRATION PURPOSES ONLY AND IS NOT GUARANTEED. ACTUAL INVESTMENT GROWTH WILL DEPEND ON THE PERFORMANCE OF THE UNDERLYING INVESTMENTS AND MAY BE MORE OR LESS THAN ILLUSTRATED.

The effect of the deductions in respect of the expenses and charges shown is to reduce the assumed growth rate on your fund by 2.0% each year.

The figures shown in the column "Projected investment growth to date" take account of the government pension levy which is payable. The table of benefits above assumes that the plan starts in May 2012. The pension levy will be deducted at the end of June in each of the years 2012, 2013 and 2014.

The following are the benefits available at retirement:

1. You can take 25% of your pension fund as a retirement lump sum, part or all of which may be tax free. The way in which this lump sum is treated is subject to certain limits and is explained in more detail in section 7. This

retirement lump sum is estimated to be €91,644. The equivalent retirement lump sum in today's money terms (assuming inflation of 3% each year) is €35,067.

2. The balance of the fund €274,933 can be used in any one of the following ways:

The balance of the fund can be used to buy a pension (annuity), and is estimated to be sufficient to buy a pension of €14,571 each year. This pension is assumed to increase at 2% each year during payment. The equivalent pension in today's money terms (assuming inflation of 3% each year) is €5,576 each year.

- Subject to either having a guaranteed income for life of at least €18,000 per annum or investing €119,800 of the balance of the fund in either an annuity payable to you immediately or in an Approved Minimum Retirement Fund (AMRF), the balance of the fund can be:
 - (a) invested in an Approved Retirement Fund (ARF), from which cash may be drawn down periodically, or in which the capital may be accumulated over time subject to a minimum level of regular withdrawal or deemed distribution each year ; or
 - (b) withdrawn as one sum, in which event this amount will be treated as part of your income in the year and you will be liable to pay income tax, the Universal Social Charge, PRSI (if applicable) and other charges or levies ("tax") payable on it.

Any sum invested in the AMRF cannot be withdrawn until you meet the guaranteed income requirement, reach age 75 years or you die.

- Taken as a taxable cash sum subject to certain restrictions and appropriate deductions.

The equivalent balance of fund in today's money terms (assuming inflation of 3% each year) is €105,200

The guaranteed pension income for life and AMRF limits are linked to the State Pension (Contributory) rate available at the time you first invest in an ARF, AMRF or vested PRSA. Currently these limits are €18,000 guaranteed pension income for life and €119,800 for an AMRF. If the State Pension (Contributory) rate changes then these limits will also change.

TABLE (B): ILLUSTRATIVE TABLE OF PROJECTED BENEFITS AND CHARGES AT 7.94% GROWTH EACH YEAR

	A	B	C	D = A + B - C
	€	€	€	€
Year	Total amount of premiums paid into the policy to date	Projected investment growth to date	Projected expenses and charges to date	Projected policy value
1	4,200	154	499	3,855
2	8,526	590	1,080	8,035
3	12,982	1,333	1,497	12,818
4	17,571	2,521	1,838	18,254
5	22,298	4,144	2,327	24,115
10	48,148	19,868	7,571	60,445
15	78,115	51,843	16,742	113,216
20	112,856	106,445	31,236	188,065
25	153,129	191,971	52,829	292,271
30	199,817	314,653	82,597	431,873
32	220,512	371,368	95,943	495,936
* NRA	225,919	386,379	99,363	512,935

Warning: These figures are estimates only. They are not a reliable guide to the future performance of your investment.

* NRA = Normal Retirement Age, which is assumed to be age 70.

IMPORTANT: THIS ILLUSTRATION ASSUMES A RETURN OF 7.94% EACH YEAR. THIS RATE IS FOR ILLUSTRATION PURPOSES ONLY AND IS NOT GUARANTEED. ACTUAL INVESTMENT GROWTH WILL DEPEND ON THE PERFORMANCE OF THE UNDERLYING INVESTMENTS AND MAY BE MORE OR LESS THAN ILLUSTRATED.

FOR INVESTMENTS IN THE SELF-INVESTED FUND, THE ABOVE ILLUSTRATIONS ASSUME AN ESTIMATED AMOUNT OF CHARGES AND THAT YOU WILL INVEST YOUR SELF-INVESTED FUND IN REAL ASSETS, SUCH AS EQUITIES, FOR THE DURATION ILLUSTRATED. ACTUAL CHARGES WILL DEPEND ON THE ACTUAL INVESTMENTS CHOSEN. PLEASE SEE SELF-INVESTED FUND SECTION BELOW.

The figures shown in the column "Projected investment growth to date" take account of the government pension levy which is payable. The table of benefits above assumes that the plan starts in May 2012. The pension levy will be deducted at the end of June in each of the years 2012, 2013 and 2014.

The charges shown in column C of both tables include the cost of intermediary/sales remuneration incurred by Irish Life, as described in section 4.

The illustrations above assume that the Annuity Lifestyling Strategy has been chosen, the assumed rate of return starts at 5.94% and 7.94% respectively. This rate will change over the term of your plan to reflect the gradual change in the funds in which your plan will be invested. For more information on the Lifestyling Strategies available please see the Complete Solutions 1 product booklet.

If you have chosen our Core Fund or our Strategic Asset Return Fund, a portion of these funds are invested with external managers to whom an incentive fee is payable if certain levels of return are achieved on the portion of the fund that they manage. In the above table of benefits and charges we have included an estimate of this incentive fee. This is for illustration purposes only and is not a contractually fixed charge. The actual level of the additional charge may be higher or lower than this depending on the performance of the portion of the fund managed by that external manager and on the external managers chosen in the future.

The following are the benefits available at retirement:

1. You can take 25% of your pension fund as a retirement lump sum, part or all of which may be tax free. The way in which this lump sum is treated is subject to certain limits and is explained in more detail in section 7. This retirement lump sum is estimated to be €128,234. The equivalent retirement lump sum in today's money terms (assuming inflation of 4% each year) is €35,844.
2. The balance of the fund €384,701 can be used in any one of the following ways:
 - The balance of the fund can be used to buy a pension (annuity), and is estimated to be sufficient to buy a pension of €20,389 each year. This pension is assumed to increase at 2% each year during payment. The equivalent pension in today's money terms (assuming inflation of 4% each year) is €5,699 each year.
 - The balance of the fund can invest in either an AMRF or an ARF, subject to the restrictions outlined in the previous illustration. The equivalent balance of fund in today's money terms (assuming inflation of 4% each year) is €107,533.
 - Taken as a taxable cash sum subject to certain restrictions and appropriate deductions.

These illustrations assume an investment term of 32 years and 6 months. The number of monthly contributions assumed to be made is 390.

The estimated fund at retirement is for illustrative purposes only and is not guaranteed. Actual investment growth will depend on how the investment performs and may be more or less than illustrated. The pension is based on applying an annuity rate of 5.30% to the balance of the fund after the retirement lump sum is taken. It is paid monthly in advance and is guaranteed to be paid for 5 years. Thereafter, the annuity will cease on your death. The pension payment is on your life only. The annuity rate used is a long-term average rate and is not guaranteed. The actual annuity rate available at retirement may differ from the annuity rate used in the illustration. Different annuity options can be chosen at retirement.

The payment made includes the cost of all charges, expenses, intermediary remuneration and sales remuneration associated with your plan.

The benefits payable will depend on the taxation rules which are described in section 7. In particular, if your pension fund grows above the standard fund threshold (as described in 'Taxation of Benefits' in section 7), tax may be payable. The illustrations given above do not allow for this tax.

Funds with External Managers

Some funds are wholly or partly managed by external managers. If you choose to invest in one of these funds, any tables of projected benefits and charges issued to you in the future will assume an estimated average level of external manager charges on that fund. However, the actual level of these charges can vary. Section 8 below gives details on the reason for this.

Incentive fees

An incentive fee may be paid to the external fund managers if they achieve positive investment returns on the funds they manage. Depending on the particular fund, circumstances in which an incentive fee may be paid to an external manager include the following:

- If the investment return is positive in any calendar quarter.
- If the investment returns exceed a certain level each year.
- If the investment returns achieved in a particular year are greater than the previous highest investment return.
- If the returns achieved by these funds exceed the performance of a benchmark fund.

An incentive fee would be payable under the assumptions used to produce the illustration in the table of benefits and charges in section 3, an estimate of this incentive fee has been included in the figures.

If during the term of your plan an incentive fee is paid, this will be reflected in the unit price.

Self-Invested Fund

If you have invested in the Self-Invested Fund, you will have discretion over the selection of assets subject to the terms and conditions of the Complete Solutions contract. The illustration above assumes that you will invest your Self-Invested Fund in shares for the duration illustrated. We have made an estimate as to an average level of charges associated with such investments. We will make similar estimates in any tables of projected benefits and charges you will receive in the future should you choose to invest in this fund. See section 8 for further details.

However, these are for illustration only and the actual charges you incur may be higher or lower than this estimate depending on the actual investments you choose. As you have a wide range of investment choices available to you, charges can also vary considerably.

4. WHAT INTERMEDIARY/SALES REMUNERATION IS PAYABLE?

The level of intermediary/sales remuneration shown is based on the typical plan outlined in section 3 above. The figures will vary based on the exact plan details in each case. Figures for your specific investment details will be shown in your welcome pack.

ILLUSTRATIVE TABLE OF INTERMEDIARY/SALES REMUNERATION

Year	€ Premium payable in that year	€ Projected total intermediary/ sales remuneration payable in that year
1	4,200	1,208
2	4,326	246
3	4,456	254
4	4,589	261
5	4,727	269
10	5,480	446
15	6,353	508
20	7,365	570
25	8,538	640
30	9,898	722
32	10,500	766
NRA	5,408	394

The projected intermediary/sales remuneration shown above includes the costs incurred by Irish Life in relation to the provision of sales advice, service and support for the plan. These costs are included in the plan charges set out in column C of both the illustrative tables (A) and (B) of projected benefits and charges in section 3.

For investments in the Self-Invested Fund, the above illustrations represent our best estimate of the intermediary/sales remuneration that will be incurred in relation to the Self-Invested Fund. However, these are for illustration only and the actual remuneration payable may be higher than this estimate depending on the actual investments you choose. See section 8 for further details.

5. ARE RETURNS GUARANTEED AND CAN THE PREMIUM BE REVIEWED?

The values illustrated above are not guaranteed. They are neither minimum nor maximum amounts. What your fund will be worth depends on the rate at which your investments grow. You could end up with a fund of more or less than these projected amounts.

If the investment return actually achieved is lower or charges higher than that assumed in these illustrations, you will need to increase your contributions in order to achieve the funds illustrated.

Protected Consensus Markets Fund

A separate guide, the 'Protected Consensus Markets Fund Guide' is available which explains the Protected Consensus Markets Fund in greater detail; you should read this carefully before investing in this fund.

There is a Protected Price Pledge in respect of any investment in the Protected Consensus Markets Fund. The aim of the Protected Price Pledge is that the unit price of the Protected Consensus Markets Fund will not fall below 80% of its highest value.

The Protected Price Pledge is provided to us by Deutsche Bank AG, London Branch - referred to as Deutsche Bank below. Irish Life does not provide the Protected Price Pledge.

The contract between Irish Life and Deutsche Bank is for an initial period up to 11 September 2015. Therefore the Protected Price Pledge is designed to apply up to this date or until it is triggered, if this is earlier. We will negotiate with Deutsche Bank to try to extend this date but there is no guarantee that we will be successful. We will write to you on this. The contract may end before 11 September 2015 in certain circumstances. **In certain circumstances the Protected Price Pledge may be reduced or removed. Please refer to your Protected Consensus Markets Fund booklet for more details.**

Irish Life does not provide the Protected Price Pledge on the Protected Consensus Markets Fund. **The Protected Price Pledge is provided to us by Deutsche Bank.** Your contract is with us, Irish Life Assurance plc (Irish Life). Irish Life has a separate contract with Deutsche Bank to provide the Protected Price Pledge in relation to this fund. **Irish Life's commitment to you is to pass on the full amount it receives from Deutsche Bank under the Protected Price Pledge in respect of your investment. Our commitment to you is restricted to the amount which we actually receive from Deutsche Bank.** No other assets of Irish Life will be used to meet these commitments. This means that if Deutsche Bank does not fulfil its obligations to us under the Protected Price Pledge, for whatever reason, or if the Protected Price Pledge has expired, then you may not receive the benefit of the Protected Price Pledge and the Protected Consensus Markets Fund's unit price could fall below 80% of its highest ever value. You will however receive the actual value of the assets in the fund at that date.

Deutsche Bank's obligations in respect of the Protected Price Pledge are restricted to its contract with Irish Life. You do not have a contract with Deutsche Bank and in no event will you be entitled to make a claim directly against Deutsche Bank under the Protected Price Pledge or in relation to Deutsche Bank's obligation to calculate what proportion of the Protected Consensus Markets Fund's performance is linked to the Consensus Markets Fund and the Protected Fund.

6. CAN THE POLICY BE CANCELLED OR AMENDED BY THE INSURER?

Irish Life can alter the plan (or issue another plan in its place) if at any time any of the following happens:

- The Revenue Commissioners remove their approval of this contract.
- It becomes impossible or impracticable to carry out any of the plan provisions because of a change in the law or other circumstances beyond our control.
- The tax treatment of Irish Life or this plan is altered or we have to pay a government levy.

If the cost of administering your **Complete Solutions 1** for personal pensions increases unexpectedly we may need to increase the charges on your plan. If we alter the plan (or issue another in its place), we will send a notice to your last known address explaining the change and your options.

You must provide any information or evidence which we need to administer the plan.

The pension plan may be ended if you are ineligible for a personal pension plan.

7. INFORMATION ON TAXATION ISSUES

Any taxes or levies imposed by the government will be collected by Irish Life and passed directly to the Revenue Commissioners.

Your **Complete Solutions** for personal pensions is approved by the Revenue Commissioners. You should note that for the purposes of calculating any Revenue limits on income tax relief for contributions, or the benefits that may be taken on retirement, all personal pension contracts must be aggregated in accordance with Revenue rules.

Tax relief on contributions

Your Age	Maximum amount you can claim income tax relief on*
Under 30	Up to 15% of your net relevant earnings
30 to 39	Up to 20% of your net relevant earnings
40 to 49	Up to 25% of your net relevant earnings
50 to 54	Up to 30% of your net relevant earnings
55 to 59	Up to 35% of your net relevant earnings
60 and over	Up to 40% of your net relevant earnings

*The maximum amount that qualifies for income tax relief is capped at an earnings limit of currently €115,000 (as at May 2012).

There is no maximum contribution that can be made, but you may only claim income tax relief within the above limits. Any excess contributions that do not qualify for relief in a given year may be carried forward to future tax years.

Taxation of benefits

Under current legislation, the maximum pension fund allowed for tax purposes is €2,300,000 (as at May 2012) or, if higher, the value of your pension funds in total on 7 December 2005 or on 7 December 2010 (subject to individual agreement with the Revenue Commissioners). The relevant maximum will apply to the aggregate value of all pension provision held by an individual. Any fund in excess of this amount will be liable to a once-off tax charge at 41% (current rate) when it is drawn down on retirement.

You can take up to 25% of your pension fund as a retirement lump sum, part or all of which may be tax free.

- The maximum tax free amount you can receive is €200,000.
- Retirement lump sums between €200,000 and €575,000 will be subject to standard rate income tax currently 20%.
- Any retirement lump sums greater than €575,000 will be taxed at your marginal tax rate and will be liable to Universal Social Charge. PRSI payable at that time will also apply.

These are lifetime limits and apply in respect of all lump sums received since 7th December 2005.

The balance of the fund can

- be used to buy an annuity (pension for life) which is subject to tax, or
- Subject to either having a guaranteed income for life of at least €18,000 per annum or investing €119,800 of the balance of the fund in either an annuity payable to you immediately or in an Approved Minimum Retirement Fund (AMRF), the balance of the fund can be:
 - (i) invested in an Approved Retirement Fund (ARF), from which cash may be drawn down periodically, or in which the capital may be accumulated over time subject to a minimum level of regular withdrawal or deemed distribution each year; ; or
 - (ii) withdrawn as one sum, in which event this amount will be treated as part of your income in the year and you will be liable to pay income tax, Universal Social Charge, PRSI (if applicable) and any other charges or levies ("tax") payable on it.
- Taken as a taxable cash sum, subject to certain restrictions and appropriate tax deductions.

Funds investing in overseas property or other overseas assets

Some funds may invest wholly or partly in property or other assets outside of Ireland. Any UK rental profit from property not held directly by Irish Life, i.e. profit from UK property companies, is subject to the basic UK rate of tax according to current United Kingdom tax law. UK tax incurred by Irish Life in respect of UK property will be deducted from the fund. Property held directly by Irish Life will not be subject to tax.

For any investments in overseas property, tax will be deducted on rental profit if this is required by the domestic tax rules of the relevant country. In some instances, depending on the domestic tax rules of the country, capital gains tax may also be payable on capital gains made within the fund.

For any investments in overseas assets, tax will be deducted on income or profits if this is required by the domestic tax rules of the relevant country. In some instances, withholding or other underlying taxes may apply, depending on the domestic tax rules of the relevant country.

Any tax due will be deducted from the fund and thus reflected in the fund performance. If tax legislation and practice changes during the term, this will be reflected in the fund value.

Self-Invested Fund

If you are invested in the Self-Invested Fund, the fund might become liable to pay additional tax.

If you are invested in the Self-Invested Fund, the choice of assets is at your discretion. Although the returns accruing on pension funds are normally exempt from tax, some of the assets you choose might become liable to tax on income or gains made. Where tax is due under these investments, this will be paid to the relevant tax authority. This might be done within the investments you have chosen, and therefore reflected in the investment values you receive. Otherwise, any tax due will be deducted from your fund.

Please contact your financial adviser or Irish Life if you do not fully understand the likely tax treatment of any benefits payable in connection with your **Complete Solutions** for personal pensions plan.

We recommend that you seek independent tax advice in respect of your own specific circumstances.

8. ADDITIONAL INFORMATION IN RELATION TO YOUR POLICY

What are the benefits and options under this plan?

Retirement benefits

The **Complete Solutions** for personal pensions is a tax efficient savings plan designed to build up a fund from which you can provide pension benefits when you retire. On retirement, part of the accumulated fund may be paid to you in the form of a retirement lump sum and the balance can be invested in order to provide you with an income, further investment or a cash sum, subject to certain restrictions. (See options outlined in section 3.)

If you die before you retire, the full value of your pension fund at that stage will be paid to your estate. Your dependants may have to pay inheritance tax depending on who inherits.

What is the term of the contract?

The contract will cease on your 75th birthday if retirement benefits have not been taken before that time. Retirement benefits can be taken at any stage between your 60th and 75th birthday.

Are there circumstances under which the plan may be ended?

The pension plan may be ended if you are ineligible for a personal pension plan.

How are the contributions invested?

Your **Complete Solutions** for personal pensions is a unit-linked pension plan. In return for your money we allocate units to your **Complete Solutions** for personal pensions from each of your chosen funds. These will be listed on your plan schedule. The value of your investment is linked to the value of these units.

The value of a unit may go down as well as up over time, depending on how the underlying assets perform. You do not own the units. Unit-linking is simply a method of working out the value of your investment at any date. The value of your investment at any date will be equal to the total of the number of units allocated to your investment from the fund multiplied by the price for units of that fund on that date. The value of your investment will therefore go down as well as up over time as the unit prices change to reflect the value of the underlying assets.

Where you choose a fund that invests in equities or bonds, the equities or bonds within that fund may be used for the purpose of securities lending in order to earn an additional return for the fund. While securities lending increases the level of risk within a fund it provides an opportunity to increase the investment return.

You may, at any time, switch some or all of your money from one fund to another by writing to us to request a switch. However it is important to note, before you switch from your original fund choice(s), that the funds in your **Complete Solutions** for personal pensions have different levels of risk and potential return and they may also have different yearly fund charges. In certain circumstances, there may be a delay in switching. This is explained in your terms and conditions. We may also apply a market value adjuster to certain funds such as the Capital Protection Fund.

Variable charges

Funds are managed at an overall level by Irish Life. For some funds, a part or all of the assets are managed by companies (external managers) other than Irish Life. There are charges taken from these funds by both Irish Life and these external fund managers.

The external fund managers deduct costs and charges from the assets they manage. These will be reflected in the performance of the fund.

The level of the charges as a percentage of the overall fund can vary for several reasons.

- The first reason for the variability in the effect of these charges on the overall fund is the fact that the proportion of the fund that is managed by external managers can vary over time. The weighting of individual investment types may also vary over time. Where the fund invests in other funds, the overall fund charge will also vary accordingly. This split can change in the future mainly due to the availability of assets and also inflows and outflows in the fund. The actual level of the external manager charge will therefore vary depending on the weighting of these factors within the fund.
- The second reason for the variability is that the level of the charges applied by external fund managers can vary according to the fund managers chosen in the future. The external managers may also be paid an incentive fee if they achieve positive investment returns on the funds they manage.
- The third reason for the variability in the effect of these charges on the overall fund is that the funds managed by external fund managers borrow to increase the amount of assets that the funds invest in. Borrowing increases the potential for enhanced returns if the assets perform well, but also increases the level of risk of the investment. The external manager charges in relation to investments may be based on the total value of the assets held including any borrowings made rather than on the funds they manage. The amount of borrowing relative to the value of the assets held will determine the level of these charges as a percentage of the funds managed.

If the level of borrowing increases relative to the value of assets, then the level of charges as a percentage of funds managed would increase. For example, a significant fall in asset values could result in a significant increase in the average level of this charge as a percentage of funds managed. This is because a fall in asset values means that the amounts borrowed would represent a higher proportion of the fund value.

Equally, if the level of borrowing reduces relative to the value of assets, then the level of charges as a percentage of funds managed would also reduce. For example, a significant rise in asset values could result in a significant decrease in the average level of this charge as a percentage of funds managed. This is because a rise in asset values means that the amounts borrowed would represent a lower proportion of the fund value.

Where these factors apply to a fund we have estimated the expected fund charges. This charge is shown in your Fund Guide. This is for illustration purposes only and is not a contractually fixed charge. The actual level of the external managers' charges may be higher or lower than this depending on the factors outlined above.

Your Fund Guide contains details on all fund charges, including an example of the average fund charge for funds with variable external manager charges, based on certain underlying fund mixes.

Self-Invested Fund

If you have invested in the Self-Invested Fund, you will have discretion over the selection of assets subject to the terms and conditions of the Complete Solutions contract.

When you are invested in the Self-Invested Fund, the costs and charges you incur will depend on your choice of investments.

You may incur transaction and ongoing costs in relation to specific assets such as equity dealing charges. You may also incur charges, payable to third parties (such as external fund managers) depending on the particular investment you have chosen. These are in addition to any charges Irish Life deducts in relation to your Complete Solutions plan. The level of transaction and ongoing costs and charges will depend on the particular asset you choose. You should ensure you understand the impact of all costs and charges associated with an asset before you instruct Irish Life to purchase it.

If the cash element (liquidity account) of your Self-Invested Fund goes into overdraft, we reserve the right to deduct overdraft interest. Please see your Self-Invested Fund Guide for more information.

The illustrations of benefits and charges given in section 3 include the charges deducted by Irish Life in relation to your Complete Solutions plan. In addition we have assumed an additional charge averaging 0.3% p.a. as an estimate of the extra charges you might incur in relation to investment in the Self-Invested Fund. This is for illustration purposes only and is not a contractually fixed charge. The actual level of the additional charges may be higher or lower than this depending on the particular asset you choose.

These additional charges only apply if you choose to invest in the Self-Invested Fund.

Further detail on the type of transaction costs and charges that you might expect to incur on the main asset categories is given in the Self-Invested Fund guide which you will receive as part of your welcome pack.

Additional remuneration may be payable to your financial adviser in relation to specific transactions. The remuneration illustrations contained in this customer

information notice do not allow for any additional remuneration payable in respect of such transactions. You should consult with your financial adviser and ensure you understand the impact of any remuneration payable in relation to any asset transaction before you instruct Irish Life to proceed with that transaction.

Is there an opportunity to change your mind?

When your Welcome Pack is issued you will have an opportunity to cancel the plan if you are not satisfied that the benefits meet your needs. You may do this by writing to the Customer Services Team at Irish Life within 30 days of the date we send you details of your plan. On cancellation all benefits will end and Irish Life will refund your contribution in accordance with revenue rules, subject to taking off any losses that may have been incurred as a result of falls in the value of assets relating to the plan during the period it was in force.

Law applicable to your plan.

Irish Law governs the plan and the Irish Courts are the only courts that are entitled to settle disputes.

What to do if you are not happy or have any questions?

If for any reason you feel that this plan is not right for you, or if you have any questions, you should contact the Irish Life Customer Services Team, Lower Abbey Street, Dublin 1 who will deal with your enquiry. Our Customer Services Team operate an internal complaints procedure and any complaints you may have will, in the first instance, be fully reviewed by them. If you feel we have not dealt fairly with your complaint, you should contact the Financial Services Ombudsman at 3rd Floor, Lincoln House, Lincoln Place, Dublin 2.

B. INFORMATION ON SERVICE FEE

There are no charges payable to Irish Life other than those set out in your table of benefits and charges and in your Terms and Conditions booklet.

C. INFORMATION ABOUT THE INSURER OR INSURANCE INTERMEDIARY OR SALES EMPLOYEE

Insurer

Your **Complete Solutions** is provided by Irish Life Assurance plc, a company authorised in Ireland. Irish Life Assurance plc is regulated by the Central Bank of Ireland. You can contact us at Irish Life Centre, Lower Abbey Street, Dublin 1, by telephone at 01 704 1010, by fax at 01 704 1900, and by e-mail at customerservice@irishlife.ie.
