

Instructions for installing ePAD drivers (Ver 2 30/7/2010 Donal Wood)

Before you try to use ePAD you need to install the ePAD drivers on each PC that you will be using the pad on.

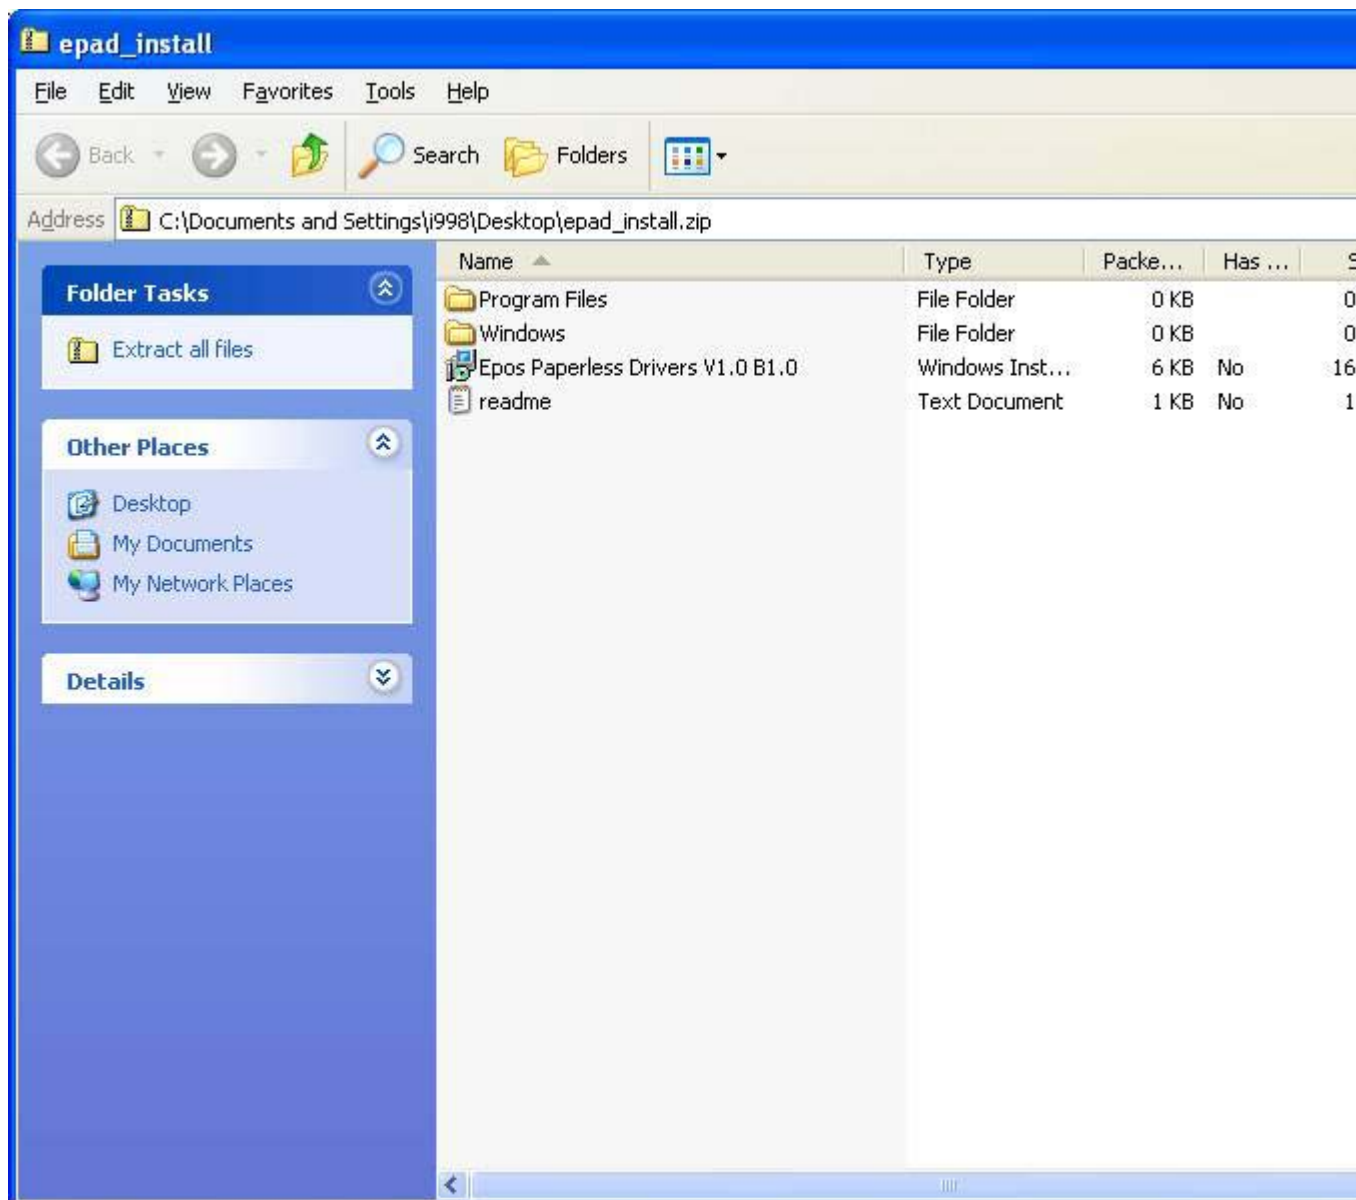

1. Click on the following link. http://www.bline.ie/uploadedFiles/epad_install.zip a warning screen will appear chose OK button.
2. You will be offered the chance to save a file to your local drive as follows, choose SAVE and select a location to save the files.

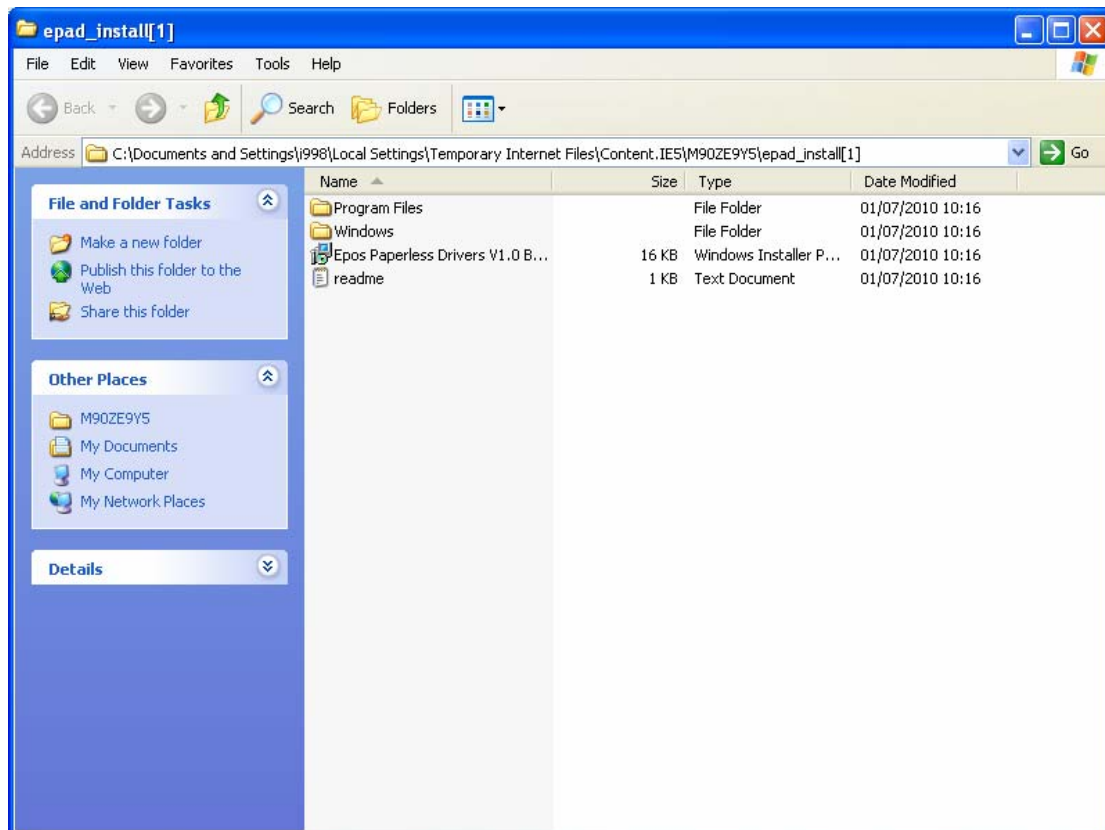

3. You will be shown the following screen. Chose OPEN

4. You will be offered the following screen. Click on the [Extract all files](#) option in the top left hand of the screen.

5. The Extraction Wizard screen will appear. Choose NEXT. Then Choose NEXT. Then Chose FINISH. The extraction wizard is complete and you will be shown the following screen.

6. Double click on the third file down Epos Paperless Driver V1.0b..

7. You will be shown the following screen. Choose RUN. The install is very brief, less than 20 seconds usually. And that's it you are ready to roll.

Two final things.

1. Check that you have the pop up blocker option turned off on you browser. You can do this by going to the Tools option; select Pop up blocker; Select Turn off
2. Make sure you ePAD is plugged into the PC before you start you b-line session.

You will notice a new question when entering application forms asking if you wish to sign electronically: if you have the customer present you can say yes and proceed. If you'd like to try a practice run, give me (or Emmanuel Rogers a call) and we'll talk you through the signing process.
