

# Consensus Equity Fund Series H

Information is correct at 31st December 2014

## Fund Description

This is a passively managed equity fund designed to achieve average equity fund returns on a consistent basis.

The country allocation is based on the average weighting of equities within Irish managed pension funds. The stock selection within each market is index stock selection, meaning that we replicate the weighting that each stock represents within the relevant market index. The objective is to eliminate manager selection risk, which is the risk of being with an investment manager who under performs.

**Warning: If you invest in this product you may lose some or all of the money you invest.**

*The assets in this fund may be used for the purposes of securities lending in order to earn an additional return for the fund. While securities lending increases the level of risk within the fund it also provides an opportunity to increase the investment return.*
