

Signature Saver

Form: SSAVDAA

TC 1212 (REV 04-08)

terms & conditions booklet

This is the terms and conditions booklet for your Signature Saver plan. **You should read the document carefully as it contains detailed and important information.** Please keep it safe in your welcome pack, as you will need it again in the future.

Introduction

We (Irish Life Assurance plc) are providing this plan for you (the person or people named in the schedule) based on the application form you signed.

Our contract with you for this plan is made up of:

- the schedule;
- this terms and conditions booklet;
- the application form;
- the fund rules (we will send these to you if you ask for them); and
- any extra rules added by authorised Irish Life staff. (We will tell you if we need to add any extra rules.)

The benefits we pay are in return for the payments that you make to us. The dates on which you have agreed to make payments are shown on the schedule. If the payments or dates change, we will send you a letter confirming the change. We will normally pay all benefits in euro.

We will pay benefits only from the assets that we hold to make payments to customers.

In legal disputes, Irish law will apply. The only rules, terms or conditions that are legally binding are those set out in our contract with you.

You will find more detailed information on all these matters in the relevant sections of these terms and conditions.

Who receives the money we pay out?

We will normally pay any benefits due under the plan to you. If you die, we will pay the person who deals with your estate. If you transfer the plan to someone else (for example, if you pass it to a financial institution as security for a loan), we will pay the proceeds to them. You must tell us if you transfer your investment to someone else.

If there are two customers, we will pay you jointly.

If one of you dies, we will pay the survivor.

Writing to us

If you need to write to us about this plan, please send your letter to:

Irish Life Centre
Lower Abbey Street
Dublin 1.

Cooling-off period

If, after taking out this plan, you feel that it is not suitable, you may cancel it by writing to us at the address shown above. If you do this within 30 days of the date we send you your welcome pack (or a copy), we will cancel your plan and refund your regular payment. We will refund any single payment (or payments), less any reduction in investment values over the period of the investment. We strongly recommend that you consult your financial adviser before you cancel your plan.

Complaints

We will do our best to sort out complaints fairly and quickly through our internal complaints procedure. If you are not satisfied after complaining to us, you can take your complaint to the Financial Services Ombudsman of Ireland. You can get more information from:

Financial Services Ombudsman's Bureau
3rd Floor
Lincoln House
Lincoln Place
Dublin 2.

Contents

Definitions

Section 1

This section explains some of the important words and phrases we use in this document.

Unit-linking

Section 2

This section describes how we work out the value of your plan.

Charges

Section 3

This section sets out the charges we take.

Payments

Section 4

This section describes your payment options.

Switching between funds

Section 5

This section explains what happens if you decide that you want to change where your money is invested.

Death benefit

Section 6

This section gives details of the benefits we will pay if a customer named in the schedule dies and what we need before we can pay out the benefits.

Cashing in all or part of your plan

Section 7

This section explains how to withdraw all or part of your plan, and what happens when you do this.

Single-life or dual-life options

Section 8

This section explains how to change your plan from single-life to dual-life, or from dual-life to single-life.

Tax

Section 9

This section deals with tax law and what will happen if there is any change in the law relating to tax.

Notices

Section 10

This section sets out what you should do with notices about your plan.

Law

Section 11

This section defines the law that will apply to this plan.

Definitions

Section 1

Certain words and phrases used in this terms and conditions booklet have specific meanings, which might be different from the meaning they would have in general use. These words are shown in **bold** and listed below, together with an explanation of their meanings in relation to this plan.

Fund

Any of the Signature Saver funds.

Fund value

At any date, this is the value defined in section 2.

Investment price

The price of a unit of a fund, which we use to work out the value of your investment. This is the price we use when buying and selling units in the fund. The investment price on any date is the price which we set for that date.

In the future we may increase or reduce the number of Signature Saver funds.

You can ask us to send you a copy of the rules creating these funds and describing how they work.

Start date

This is the date shown on your schedule.

Units

Each fund in the panel of funds contains a number of identical units. We will work out the value of each unit by referring to the value of the assets of the fund after we make deductions. We set aside a number of these units for the plan so we can work out its value.

We, us

Irish Life Assurance plc.

You, your

The person (or people) named as the owner in the

schedule. You are legally entitled to the benefits as long as they have not been transferred to someone else.

Section 2

Unit-Linking

2.1 Introduction

This plan is unit-linked. Unit-linking is simply a way of working out the value of your plan on any particular date. You do not own the units. The plan will be linked to units in one or more of the funds listed in section 1. The plan can be linked to up to 10 funds.

If you have chosen to invest in the Property Portfolio Fund, the Eurasia Property Fund, the Eurasia Property Plus Fund or the UK Property Fund there may be a maximum amount that you are allowed to invest in the fund.

If you have chosen to invest in a fund that invests in equities, the equities within that fund may be used for the purpose of securities lending in order to earn an additional return for the fund. While securities lending increases the level of risk within a fund it provides an opportunity to increase the investment return.

2.2 Working out investment prices

The value of a unit (known as the investment price) will rise or fall over time, depending on how the assets in the fund perform. We work out the investment price of units in all of the funds by using the market value of the assets of the fund and taking off the fund charge.

You will find exact details of how we work out the price of units in the resolutions and rules that control the fund. You can get these by writing to us and asking for them.

Your fund value on any particular date will be

equal to:

- the number of units we have placed in your plan from each fund; multiplied by
- the investment price for units of that fund on that date; and
- added together for each of the funds in your plan.

As a result, this fund value will rise and fall over time as the investment prices change to reflect the value of the assets in the funds.

We use the same price to add units to your plan and to take money from it.

Section 3

Charges

3.1 Entry charges

Your payments buy units in a savings fund. The percentage of your payments we invest will be shown in your plan schedule. If we are investing less than 100% of your payment, the amount we do not invest is an entry charge.

Depending on your level of payment, the following entry charges will apply.

- An entry charge of 5% on all regular payments between €250 and €749.99 a month.
- An entry charge of 4.5% on all regular payments between €750 and €1,249.99 a month.
- An entry charge of 4% on all regular payments over €1,250 a month.
- An entry charge of 3.5% on any lump-sum payments you make.

3.2 Fund charge

Each month we make a charge of $\frac{1}{12}$ of the yearly fund charge for each of your chosen funds. We take this charge from the investment price evenly over the month. This charge goes towards the costs of:

- setting up and administering the investment;
- paying sales and commission costs (if these apply); and
- the expenses of managing your investment.

The yearly fund charges on the Signature Saver funds are as follows.

Signature Saver funds	Total fund charge
Consensus Fund Series Y	1.00%
Indexed Cash Fund Series Y	1.00%
Global Opportunities Fund Series Y	1.10%
Indexed European Gilts Fund Series Y	1.10%
Indexed US Fund Series Y	1.10%
Indexed UK Fund Series Y	1.10%
Indexed Ireland Fund Series Y	1.10%
Indexed Europe Fund Series Y	1.10%
Indexed Japan Fund Series Y	1.10%
Indexed Pacific Equity Fund Series Y	1.10%
Active Managed Fund Series Y	1.10%
Long Bond Fund Series Y	1.10%
PI International Share Fund Series Y	1.35%
Bloxham Intrinsic Value Fund Series Y	1.35%
Bloxham High Yield Fund Series Y	1.35%
Bloxham Contrarian Fund Series Y	1.35%
Fidelity India China Fund Series Y	1.85%
Fidelity European Opportunities Fund Series Y	1.85%
Fidelity Managed International Fund Series Y	1.85%
Fidelity Global Property Shares Fund Series Y	1.85%
Fidelity Global Special Situations Fund Series Y	1.85%
Fidelity India Fund Series Y	1.85%
Fidelity China Fund Series Y	1.85%
Fidelity EMEA Fund Series Y	1.85%
Consensus Equity Fund Series Y	1.10%
Global Select Fund Series Y	1.25%
Tomorrow's World Fund Series Y	1.25%

In the following Signature Saver funds, part of the fund charge can vary. The following table shows, where relevant, the Irish Life charge, the expected additional average level of the charge that can vary, and the total expected fund charge:

	Irish Life charge
Property Portfolio Fund Series Y	1.1%
Eurasia Property Fund Series Y	1.1%
Eurasia Property Plus Fund Series Y	1.1%
UK Property Fund Series Y	1.35%
Diversified Assets Fund Series Y	1.1%
Commodities Index Fund Series Y	1.1%
	Expected average level of variable charge
Property Portfolio Fund Series Y	1.1%
Eurasia Property Fund Series Y	1.35%
Eurasia Property Plus Fund Series Y	1.55%
UK Property Fund Series Y	0.375%
Diversified Assets Fund Series Y	0.4%
Commodities Index Fund Series Y	0.53%
	Total expected fund charge
Property Portfolio Fund Series Y	2.2%
Eurasia Property Fund Series Y	2.45%
Eurasia Property Plus Fund Series Y	2.65%
UK Property Fund Series Y	1.725%
Diversified Assets Fund Series Y	1.5%
Commodities Index Fund Series Y	1.63%
Bloxham Logic Fund Series Y	1.55%

The expected average levels of variable charges indicated above are those expected over the long-term. The actual level of charges may be higher or lower than this. The section on variable charges below explains the reasons for this.

Variable Charges

The charge on a number of funds can vary and therefore is not fixed throughout the lifetime of your policy.

The charge noted in the above table reflects our best estimate of the total charges we expect will be incurred by the fund over the long term. However, the actual charges you incur may vary for the reasons given below.

1. Property Portfolio Fund, Eurasia Property Fund, Eurasia Property Plus Fund, UK Property Fund, Diversified Assets Fund and Commodities Index Fund

These funds are managed at an overall level by Irish Life. Within these funds, a part of the assets are managed by companies (external fund managers) other than Irish Life. Within the Commodities Index Fund all of the assets are managed by companies (external fund managers) other than Irish Life. The commodities part of the Diversified Assets Fund is also managed by external managers.

There are charges taken from these funds by both Irish Life and these external fund managers. Currently, the property funds invest in property in Ireland, the UK, Europe and Asia. Whilst the Irish properties are managed by Irish Life Investment Managers (ILIM), some of the UK, and currently all of the European and Asian property investments are invested with external fund managers, rather than through holding the properties involved directly.

The external fund managers take their costs and charges from the assets they manage. These charges are reflected in how the funds perform. The level of the charges they take, as a percentage of the overall fund, can vary for three reasons.

- The first reason is the fact that the percentage of the fund that is managed by external managers will change over time. This split will change depending on the availability of the particular assets they are managing and also the level of money coming into and out of the fund.
- The second reason is that the level of the charges can vary according to the fund manager we choose in the future. We may also pay the managers an incentive fee if they achieve better investment returns on the funds they manage than we expected. For incentive fees to be paid, the investment returns would have to exceed a certain level each year (currently at least 8% a year).
- The third reason is that the funds containing property which are managed by external fund managers may borrow to increase the amount of property that the funds can invest in. Borrowing increases the chance of achieving improved returns if the properties perform well. However, it also increases the level of risk of the investment. The external managers' charges are based on the total value of the properties held rather than on the funds they manage. The level of these charges as a percentage of the funds managed will depend on the amount of borrowing relative to the value of the properties held.

If the level of borrowing increases by more than the value of properties, the level of charges as a percentage of funds managed would increase. For example, a significant fall in property values could result in a significant increase in the average level of this charge as a percentage of funds managed. This is because a fall in property values means that the amounts borrowed would represent a higher percentage of the property value.

Equally, if the level of borrowing falls by more than the value of properties, then the level of charges as a percentage of funds managed would also reduce. For example, a significant rise in property values could result in a significant reduction in the average level of this charge as a percentage of funds managed. This is because a rise in property values means that the amounts borrowed would represent a lower percentage of the property value.

Taking account of these factors, we estimate that the expected average level of charges on the funds will be split as on page 7.

The actual level of the external manager variable charge, and therefore the total expected charge, may be higher or lower than this depending on the factors outlined above.

2. Bloxham Logic Fund

This fund is managed by an external manager (Bloxham). It invests in a range of Signature funds and the proportion invested in each fund will vary over time. Since the fund charge varies between each fund, the overall fund charge on the Logic Fund will vary depending on the weighting of investments in each fund. For example, if the Logic Fund increases its weighting in externally-managed funds, the overall charge on the Logic Fund is likely to increase. Also, some of the funds the Bloxham Logic Fund can invest in have variable charges as described above. If these charges vary, the overall fund charge on the Logic Fund may vary as a result.

Taking account of these factors, we estimate that the expected average level of charges on the Bloxham Logic Fund will be 1.55%. This is based on an assumed mix of the Logic Fund. The actual level of the charges may be higher or lower than this and will

depend on the underlying mix of funds in the Logic Fund over the period of your investment.

The fee for the Logic Fund is fixed each quarter at a level that equals the weighted average fee of the underlying funds at that time. It will be rebalanced quarterly to reflect any movements in the underlying mix.

Additional points to note

Increase in charges

We will only increase the charges given above, for one of the following reasons:

- there is an increase in the costs of dealing with the investment. If this happens, we will give you notice of the increase.
- the charges vary for one of the reasons given above in the section on variable charges.

Funds containing property

When more customers are cashing in their investments than making new investments in any fund that invests in property, the value of the units may undergo a reduction to reflect a proportion of the costs associated with buying and selling property.

We take the costs of maintaining and valuing the properties in these funds and the costs of collecting rent off the funds before we take any charges.

Currency

Certain funds contain assets which are invested outside of the eurozone. The fund managers may use currency protection against any changes in the value of those currencies against the euro. The cost of any currency protection used is charged to your fund. Where the fund manager has not used

currency protection, there is a risk that your plan value will be adversely affected by changes in currency exchange rates. Your booklet contains details on which funds may use currency protection.

Fund Closures

At any stage we can change the range of fund options that are available. We reserve the right to close a fund. If you are invested in that fund, we will give you advance notice. You will have the option to switch your investment into any of the other funds open at that time.

3.3 Plan charge

We will take off two separate plan charges.

- A fixed charge that will be €4.39 a month in 2008. We will increase this charge each year by the increase in the Consumer Price Index for the previous year.
- A charge that we may take as a percentage of your regular payment fund. This charge will be equal to a maximum of 0.75% of your fund each year. If this charge applies, it will be shown in the 'Your chosen fund' section of your plan schedule. This charge only applies if the standard entry charges (see section 3.1) are reduced.

We will take these charges by cancelling some units in your fund each month. These apply as well as the fund charges shown in section 3.2.

Section 4

Payments

Details of the amount you have chosen to pay and how often you have chosen to pay are set out in the schedule. These are known as regular payments.

4.1 Automatic increases in payments

If you chose not to increase your payments each year when you filled in your application form, your regular payments will stay the same.

Otherwise, the regular payments to your plan will automatically increase each year on the anniversary of the start date of your plan. Your regular payments will increase each year in line with the Consumer Price Index. When the Consumer Price Index is low, we may set the increase at a slightly higher minimum amount. (This is currently 5%, but this percentage is a guide only. The actual percentage increase may be different when we work out the increase in your payment.) If the Consumer Price Index stops being published, we will decide on a suitable rate of increase, taking into account customers' reasonable expectations and other current increases in the insurance industry. We will tell you what this increase will be.

If you decide in the future that you do not want your payments to increase, you must tell us in writing.

The maximum monthly payment is €50,000. Indexation cannot take your monthly payment over this maximum amount.

4.2 Varying your payments

You may increase the amount of the regular payment that you make at any time, as long as the amount of the increase is at least €15 a month. You may also reduce your regular payments at any time. However, you cannot reduce your regular payments below the minimum payment that we allow.

The maximum monthly payment is €50,000. You cannot increase your monthly payment over this maximum amount.

4.3 Skipping payments

You may skip regular payments if you write to us at least one month beforehand saying how long you want to skip payments for. At the end of this period, we will start collecting your payments again.

4.4 Single payments

You can make a one-off payment of at least €650 at any time. The maximum one-off payment you can make is €1,000,000. In certain circumstances we may refuse to allow you to do this. However, if we do, we will tell you why.

Assuming we accept your extra payment, we will invest it in the fund or funds you have chosen by placing extra units in your plan. We will use the investment price of units on the day we receive your payment and all the documents we need. Currently, we use 96.5% of each single payment you make to add units to your plan. We will keep the other 3.5% as our charge. However, the percentage of any single payments that we invest may change in the future.

4.5 Paid-up plan

You can change your plan to a paid-up plan at any time. This means you will not make future payments and the units we have already added will stay in your plan until you cash it in or we pay a death benefit. You may decide to start making payments again in the future.

If you want to make your plan paid-up, you should write to us.

Section 5

Switching between funds

At any time, you may ask us in writing to switch some or all of your money from one Signature Saver fund to another.

If you are switching between funds, the total value of the new units will be the same as the total value of the units you have replaced.

Before you switch from your original fund choice or choices, please remember that the funds in Signature Saver have different levels of risk and possible returns and they may also have different yearly fund charges.

If you want to make a switch, you must write to us. The investment prices we use will be those on the day we receive your written request. We do not charge for this service.

At any stage we can change the range of fund options that are available. For example we may add new ones or close existing ones. You can only switch into a fund if it is open for switches at the time we receive your request.

Delay Periods

In certain circumstances, we may delay switches. These circumstances can include the following.

- If a large number of customers want to switch out of the same fund at the same time.
- If there are practical problems selling the assets in which the fund is invested.

In particular, we may delay switches to or from the Property Portfolio Fund, the Eurasia Property Fund, the Eurasia Property Plus Fund and the UK Property Fund for up to six months from the time we receive your request. We may delay switches to or from the Diversified Assets Fund for up to three months from the time we receive your request. We need this notice period because of the high cost and the time involved in selling properties.

When there are more customers cashing in their investments than making new investments in the Property Portfolio Fund, the Eurasia Property Fund, the Eurasia Property Plus Fund the UK Property Fund or the Diversified Assets Fund, we will reduce the value of units in the fund to reflect the percentage of the costs associated with buying and selling properties. The reduction for the part of the fund invested with external fund managers may happen at a different time to the reduction for the rest of the fund.

A portion of the Bloxham Logic Fund may be invested in the Property Portfolio Fund, the Eurasia Property Fund, the Eurasia Property Plus Fund, the UK Property Fund or the Diversified Assets Fund. As described above, when more customers are cashing in their investments than making new investments in these funds, the value of the units may undergo a reduction to reflect a proportion of the costs associated with buying and selling property. This in turn will lead to a reduction in the value of units in the Bloxham Logic Fund.

If we do delay a switch, it will be based on the value of units at the end of the period.

Once you have given us notice that you wish to switch between funds you cannot change your mind during any notice period,

Section 6

Death benefit

6.1 Death benefit if there is one life assured shown on your schedule

On the date we are told about your death, we will switch the fund value to the Life Claims Cash Fund. We will use the investment price which applies on that day.

We do not charge for this switch.

The death benefit we pay will be 100.1% of the value of the Life Claims Cash Fund based on the investment price on the day we receive all the documents we need. We will take off any tax that is due. We describe tax in section 9.

6.2 Death benefit if there are two lives assured shown on your schedule

On the date we are told about the death of either of the lives assured shown on the schedule, we will switch the fund value to the Life Claims Cash Fund. We will use the investment price which applies on that day.

We do not charge for this switch.

The death benefit we pay will be 100.1% of the value of the Life Claims Cash Fund based on the investment price on the day we receive all the documents we need. We will take off any tax that is due. We describe tax in section 9.

The fund value will reduce to zero but the plan will continue. We will change the plan to a single life plan. The plan will end when the

remaining life assured dies. The death benefit we will pay when the remaining life assured dies is as described in section 6.1.

6.3 What we need before paying the death benefit

Before we will pay the death benefit we must receive the following.

- A filled-in claim form (you can get this form from any of our offices).
- Proof that you are entitled to claim the proceeds of the plan. This would include these terms and conditions and the schedule.
- Also, before we will pay the death benefit, we must receive proof of a valid death claim (including proof of death in the form of a death certificate and, if not previously produced, a birth certificate).

To protect your entitlements, we may need other proof that the person claiming is entitled to the proceeds of the plan. For example, we may need to see deeds of assignment (if you have passed your plan to a building society as security for a loan), or grant of representation (a legal document that authorises the personal representatives of someone who has died to handle their estate).

Section 7

Cashing in all or part of your plan

You may cash in all or part of your plan in full at any time, if the funds that you have invested in do not contain property, by writing to us at the address given in the introduction to this document.

If you take money out of your plan, we will reduce the amount of money we pay you by the amount of any tax due. We explain this in the tax section (section 9).

If you fully cash in your plan, we will end your plan.

If you cash in part of your plan, we will cancel some of the units we have added to it. The number of units we cancel will be the number you need for the value of these units to equal the 'before tax' amount you want to cash in. The amount you cash in must be at least €350 after tax.

At the moment we do not make an administration charge if you want to cash in part of your plan. However, we have the right to charge you if we have extra costs in altering the plan. If we are going to introduce this kind of charge, we will write and tell you when we receive your request to cash in part of your plan.

Before we can pay you money from your investment, we will need:

- a filled-in claim form (you can get this form from any of our offices); and
- proof that you are entitled to claim the

investment's proceeds (including these terms and conditions and the schedule).

The investment prices we use to work out the value due to you will be those that apply on the day we receive your filled-in claim form and any other documents we need.

In certain circumstances, we may delay total or part withdrawals. These circumstances can include the following.

- If a large number of customers want to take money out of the same fund at the same time.
- If there are practical problems selling the assets in which the fund is invested.

In particular, if you are invested in the Property Portfolio Fund, the Eurasia Property Fund, the Eurasia Property Plus Fund or the UK Property Fund, it is possible that you may have to give us up to six months' notice in writing before you can cash in any part of your investment that is invested in these funds. If you are invested in the Diversified Assets Fund, it is possible that you may have to give us up to three months notice in writing before you can cash in any part of your investment that is invested in this fund. We need this notice period because of the high cost and the time involved in selling properties. The cash-in value you receive would be based on the value of units in your fund at the end of the notice period.

Funds containing property

When more customers are cashing in their investments than making new investments in any fund that invests in property, the value of the units may undergo a reduction to reflect a proportion of the costs associated with buying and selling

property. The reduction for the part of the fund invested with external fund managers may happen at a different time to the reduction for the rest of the fund.

If we delay a withdrawal, it will be based on the value of units at the end of the period.

Once you have given us notice that you wish to cash in your investment you cannot change your mind during any notice period.

Section 8

Single-life or dual-life options

a) Dual-life option

You may change a single-life plan to a dual-life plan. We have the right not to allow you to make this change.

b) Single-life option

If both of the lives assured (as shown on the schedule) write and ask, we can change the investment from dual-life to single-life. We have the right not to allow you to make this change.

For both these options we will ask you to provide a 'deed of assignment' (a legal document which transfers ownership of the investment) before we can make this change. You may have to pay stamp duty on this deed. This will be your responsibility. We may also have to take off tax (see section 9).

Section 9

Tax

Irish tax

Under current Irish tax law (April 2008), tax is payable on returns made on this plan. We will pay tax at the rate which applies for customers of life-assurance companies (currently 23%). This tax rate is equal to the standard rate of income tax (currently 20%) plus 3%. Where the charge applies, Irish Life will deduct any tax due from the value of your plan and pay it to the Irish Revenue. We will pay you the after tax amount.

We must pay Irish tax on investment returns:

- if you make a withdrawal (full or partial) from your plan;
- if we pay the death benefit;
- on every eighth anniversary (as outlined below); and
- if you transfer all or part of your investment to somebody else. There are some exceptions to this however you must inform us if you transfer the investment.

The tax you pay on each eighth anniversary will reduce the amount invested in the fund from that date onwards. Where tax is deducted from your fund on each eighth anniversary, this tax can be offset against any tax that is payable on a subsequent full encashment.

In some circumstances, more tax may be due after you die. For example, if the benefit is paid to your estate, your beneficiaries may have to pay inheritance tax. (There is no inheritance tax due on

an inheritance between a married couple.) In certain circumstances inheritance tax due under this investment may be reduced by any tax paid if you die.

If payments are made by anyone other than the legal owner of the plan, for example from a company or business account, there may be other tax implications.

Overseas tax

Property Portfolio Fund, Eurasia Property Fund, Eurasia Property Plus Fund, UK Property Fund, Diversified Assets Fund, Bloxham Logic Fund

Parts of these funds may invest in overseas property.

For the investments in UK property, any UK rental profit is subject to the UK basic rate of tax (currently 20% as at 6th April 2008) according to current United Kingdom tax law. Any tax due will be taken from the fund and the fund performance will reflect this.

For the investments in European and Asian property, tax will be deducted on rental profit if this is required by the domestic tax rules of the relevant country. In some instances, depending on the domestic tax rules of the country, capital gains tax may also be payable on capital gains made within the fund. Any tax due will be deducted from the fund and thus reflected in the fund performance. If tax legislation and practice changes during the term, this will be reflected in the fund value.

If tax laws or any other relevant laws change after the start date, we will change the terms and conditions of the plan if we need to do this to keep the plan in line with those changes. We will write and tell you about any changes in the terms and conditions.

Under current tax law, we must take off the correct amount of tax. We make the final decision (in line with all relevant laws and guidelines) on what tax applies to this plan.

Section 10

Notices

You must send every notice and letter about this plan to our main office at:

Irish Life Centre
Lower Abbey Street
Dublin 1.

Section 11

notes:

Law

This plan is governed by the laws of the Republic of Ireland, and the Irish courts are the only courts that are entitled to hear any dispute.

notes:
