

See how much life insurance you could get

You'll be surprised how little it costs for something
that could mean a whole lot

We insure our cars, our holidays and sometimes even the family dog, but the very thing we may forget to insure is the most important of all – ourselves.

What you may not know is how affordable Life Insurance can be.

Life insurance can cost from €15 a month. The actual cost will depend on things like how much cover you need, your age and health and the type of plan you buy. And remember, you must keep up your payments to stay on cover.
