

Managed Portfolio Fund 1 (Foundation)

Information is correct at 31st December 2014

Fund Description

This is a passively managed fund, where 65% of the assets are invested in the Consensus Fund and 35% track the performance of shorter term eurozone government gilts.

The Consensus Fund invests in the same assets as the main Irish pension investment managers, i.e. it mirrors their choice of equities, bonds, property and cash. The European fixed interest securities are Eurozone bonds that typically have less than five years to maturity.

This fund is suitable for those who are looking for less volatility than traditional managed funds and will accept less potential growth.

Warning: If you invest in this product you may lose some or all of the money you invest.

The assets in this fund may be used for the purposes of securities lending in order to earn an additional return for the fund. While securities lending increases the level of risk within the fund it also provides an opportunity to increase the investment return.
