The risk level and volatility rating of a fund can change from time to time. Please visit our website **www.irishlife.ie** to see the most up-to-date fund information.

### 4. Cash Withdrawal and Minimum Withdrawal amounts for ARF

Please Note: Due to the imputed distribution requirement, Irish Life will deduct a minimum withdrawal from the value of the ARF during December each year. This is automatically deducted from your ARF and paid to you net of income tax, PRSI and the Universal Social Charge (USC). The minimum withdrawal will be 4% from the year you turn 61 and will increase to 5% from the year you turn 71. Where the total value of your ARFs and vested-PRSAs (less restricted fund) is over €2 million, then from the year you turn age 61 the minimum income withdrawal is 6%. It is your responsibility to let us know if you have other ARFs and vested PRSAs with a total value greater than €2 million. For more information please see your product booklet or speak to your financial adviser.

#### Optional Regular Withdrawal - ARF only

You can choose to take a regular withdrawal from your ARF, however you must choose at least a minimum withdrawal amount as described above. If you wish to take a regular withdrawal from your ARF please indicate below the annual withdrawal you would like to draw down as a percentage of the value of your fund. We will pay the net amount to the account you have provided below.

If at any point after taking out your AMRF you satisfy the guaranteed income for life requirement of €12,700 per year (currently) from other sources your AMRF should become an ARF and tax will be due on a minimum withdrawal amount as described above. It is your responsibility to let us know if your income circumstances have changed. Your AMRF also becomes an ARF when you are aged 75.
